

### **2024 Northeast Sportsman Dirt Modified Rules**

Note: Rules may be adjusted/amended during the racing season for the reason of fairness of competition by track management.

#### **LVMS Engine Types Allowed**

Option 1- GM Sealed 602 Crate. STSS/Dirtcar Legal. Engine must be sealed by GM (or either series Dirtcar or STSS authorized repair centers) or a Pre-Approved GM certified engine builder.

Option 2- Unsealed GM 602 Crate. Engine must be built to GM sealed motor specifications, specifications required, (including all legal internal engine part numbers) can be found in Lake View Motor Speedway Unsealed Crate Engine Rulebook 2024. Unsealed crate is equivalent to a sealed crate.

Option 3- Budget 350/2BBL- Engine must be built to Lake View Motor Speedway budget engine specifications required, (including all legal internal engine part numbers) can be found in Lake View Motor Speedway Budget Engine Rulebook 2024. (See separate car rules for Budget Engine Sportsman Modifieds at [www.lakeviewmotorspeedway.com](http://www.lakeviewmotorspeedway.com).)

#### **IF YOU RUN WITH STSS:**

Follow STSS Rulebook except the following:

Any American Racers STSS Legal on all 3 corners except Right Rear. Right Rear must be AR56.

Minimum weight 2400 lbs

Rev Box Maximum 6000 RPM

#### **IF YOU RUN WITH DIRTcar:**

Follow DIRTcar Rulebook including the following:

Any Hoosiers DIRTcar Legal on all 3 corners except Right Rear. Right Rear must be D300 or D400.

Minimum weight 2400lbs

Rev Box Maximum 6000 RPM

#### **Final Rule Notes**

Any rules not covered by this rulebook, refer to Dirtcar and STSS rulebook for clarification and enforcement.

Any rules that conflict in Dirtcar and STSS rulebook, Lake View Motor Speedway track officials will determine clarification, enforcement and penalty(s) applied at their discretion.
